Education

ShanghaiTech University, M.S. in Computer Science Sept 2020 – June 2023
Major GPA 3.97/4.00, Outstanding Graduate, Advisor: Fu Song

ShanghaiTech University, B.E. in Computer Science Sept 2016 – July 2020
Outstanding Graduate (6/307)

Experience

Senior Security Researcher, Coderrect Inc. d/b/a Sec3 – Remote May 2023 – Present

- Led security audits for 50+ Solana and Rust-based protocols (predominantly DeFi), including ecosystem leaders: *Jupiter*, *Kamino*, *Sanctum*, *Raydium*, *Wormhole*, *Marinade*, *MarginFi*. Delivered remediation guidance and verified fixes post-patch.
- Designed and built internal tooling and repeatable methods to streamline audits.
- Open-sourced IDL Guesser — an open-source tool that automatically recovers the IDL information from closed-source Anchor-based Solana programs.

Visiting Scholar, Northwestern University – Chicago, United States Feb 2022 – May 2023

- Advised by Prof. Xinyu Xing; conducted research at the intersection of AI and security, exploring both AI security and AI for security.
- Built and ran coverage-guided, grammar-aware fuzzing frameworks for the TON blockchain (compilers and TVM), uncovering multiple security and correctness bugs.
- Competed as the captain of the Straw Hat team in the DEFCON CTF Finals.

Intern Security Researcher, Tencent – Shanghai, China Summer 2017, 2018, 2019, 2020

- Conducted in-depth research in automobile security by reverse-engineering firmware.
- Investigated AI-driven program analysis techniques to support security research.
- Competed as a key member of the A*0*E team in the DEFCON CTF Finals.
- Explored adversarial vision attacks, contributing to both real-world project and academic competition.

Publications

AIRS: Explanation for Deep Reinforcement Learning based Security Applications

Jiahao Yu, Wenbo Guo, **Qi Qin**, Gang Wang, Ting Wang, Xinyu Xing
USENIX Security 2023

DeJITLeak: Eliminating JIT-Induced Timing Side-Channel Leaks

Qi Qin, JulianAndres JiYang, Fu Song, Taolue Chen, Xinyu Xing
ESEC/FSE 2022
Won the Distinguished Paper Award at the CIE Conference on Cyber Security 2023

Awards & Honors

Selected Traditional Capture-The-Flag (CTF)

- 4th place (w/ Nu1L) at DEFCON CTF 2025
- 5th place (w/ Straw Hat) at DEFCON CTF 2023, 2024
- 7th place (as captain of Straw Hat) at DEFCON CTF 2022
- 7th place (as captain of Nu1L) at DEFCON CTF 2021
- 1st place (w/ A*0*E) at DEFCON CTF 2020
- 4th place (w/ A*0*E) at DEFCON CTF 2018, 2019

Selected Web3 Capture-The-Flag (CTF)

- 1st place at MoveCTF 2024
- 1st place at TON CTF 2024
- 1st place at zkCTF 2023
- 1st place at Metarust CTF 2023 – Sui Track
- 1st place at CTF MOVEment 2022 (Aptos)

Selected AI Competitions

- 5th place at CVPR 2022 Robust Models towards Openworld Classification Competition
- 10th place at CVPR 2025 Jailbreaking Attacks on Multimodal Foundation Models Competition

Professional Services

Teaching Assistant

Outstanding Teaching Assistant Award

- Introduction to Information Science and Technology
- Applied Cryptography
- Compilers
